

Let's Learn Constitution in a Simpler Manner

A Mini Project Report

Submitted in partial fulfilment of the requirements for the award of the degree of

BACHELOR OF ENGINEERING

in

COMPUTER SCIENCE AND ENGINEERING

Submitted by

Dharsika. P (Reg. No: 922525104030)

Under the guidance of

Mr./Ms. Mrs. BHAVADHARANI K

, M.E.,

Assistant Professor, Department of CSE

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

V.S.B. ENGINEERING COLLEGE, KARUR

(An Autonomous Institution)

Karur – 639 111, Tamil Nadu

MAY 2026

BONAFIDE CERTIFICATE

This is to certify that the mini project report titled " Let's Learn Constitution in a
Simpler Manner

"is the bonafide work of P.Dharsika who carried out the project work under my supervision during the academic year 2025 – 2026, in partial fulfilment of the requirements for the award of the degree of Bachelor of Engineering in Computer Science and Engineering, V.S.B. Engineering College, Karur.

ACKNOWLEDGEMENT

We express our sincere gratitude to our Chairman, Secretary and Correspondent of V.S.B. Engineering College, Karur, for providing us with the necessary facilities and a congenial atmosphere to carry out this project successfully.

We are deeply thankful to our Principal for his constant encouragement and support extended throughout the course of this project.

We express our heartfelt thanks to the Head of the Department, Department of Computer Science and Engineering, for her valuable guidance and for providing the necessary facilities to complete this project.

We would like to place on record our profound gratitude to our project guide for his/her patient guidance, constant supervision and constructive suggestions, which helped us to complete this project within the stipulated time.

We also thank all the teaching and non-teaching staff of the Department of Computer Science and Engineering for their help and support. Finally, we thank our parents and friends for their encouragement and moral support throughout this project work. Abstract

The Constitution is the supreme law of the country and forms the foundation of democracy, justice, equality, and fundamental rights. However, many students and citizens find constitutional provisions difficult to understand because of complex legal language. This project presents "**Let's Learn Constitution in a Simpler Manner,**" an interactive web/mobile application that simplifies constitutional concepts using Artificial Intelligence (AI), Natural Language Processing (NLP), quizzes, and visual learning. The system explains constitutional articles, fundamental rights, duties, directive principles, and amendments in simple language with examples. It also provides quizzes, multilingual support, and voice assistance to improve understanding among students and the general public.

Abstract

The Constitution is the supreme law of the country and forms the foundation of democracy, justice, equality, and fundamental rights. However, many students and citizens find constitutional provisions difficult to understand because of complex legal language. This project presents "**Let's Learn Constitution in a Simpler Manner,**" an interactive web/mobile application that simplifies constitutional concepts using Artificial Intelligence (AI), Natural Language Processing (NLP), quizzes, and visual learning. The system explains constitutional articles, fundamental rights, duties, directive principles, and amendments in

simple language with examples. It also provides quizzes, multilingual support, and voice assistance to improve understanding among students and the general public.

Chapter 1: Introduction

The Constitution provides the legal framework for governing a nation and guarantees the rights and responsibilities of citizens. Despite its importance, constitutional education is often limited due to the use of technical legal terminology.

This project develops an AI-powered educational platform that converts complex constitutional content into simple, easy-to-understand language. The application also includes quizzes, summaries, voice support, and multilingual explanations to make constitutional learning engaging and accessible.

Chapter 2: Problem Statement

Many students and citizens struggle to understand constitutional provisions because of:

- Complex legal language
- Lack of interactive learning tools
- Limited awareness of constitutional rights and duties
- Insufficient multilingual educational resources

The proposed system addresses these challenges by simplifying constitutional concepts through AI-based learning.

Chapter 3: Objectives

The objectives of this project are:

- To simplify constitutional concepts for students and citizens.
- To explain articles and amendments in simple language.
- To provide interactive quizzes for self-assessment.
- To support multilingual learning.
- To improve constitutional awareness using AI technologies.

Chapter 4: Scope of the Project

The application can be used by:

- School students
- College students
- Competitive exam aspirants
- Teachers
- Citizens
- Government awareness programs

The platform can be deployed as both a web application and a mobile application.

Chapter 5: Literature Survey

Existing Methods

- Printed Constitution books
- School textbooks
- Online legal websites
- Classroom teaching

Proposed Method

The proposed AI-based system simplifies constitutional content using Natural Language Processing (NLP), interactive learning modules, quizzes, and multilingual support, making learning more engaging and user-friendly.

Chapter 6: System Requirements

Hardware Requirements

- Intel Core i3 or above
- 4 GB RAM (minimum)
- 20 GB Storage

- Internet Connection

Software Requirements

- Windows/Linux
- Python 3.10+
- Visual Studio Code
- Jupyter Notebook
- Flask or Django
- HTML, CSS, JavaScript
- SQLite/MySQL
- TensorFlow (optional)
- NLP Libraries (NLTK, spaCy)

Chapter 7: Methodology

Step 1: Data Collection

Collect constitutional content from official government publications and educational resources.

Topics include:

- Preamble
- Fundamental Rights
- Fundamental Duties
- Directive Principles of State Policy
- Union Government
- State Government
- Judiciary
- Constitutional Amendments
- Elections
- Emergency Provisions

Step 2: Data Processing

- Organize chapters and articles
- Simplify legal language
- Prepare multilingual content
- Store in a structured database

Step 3: AI-Based Learning

The system:

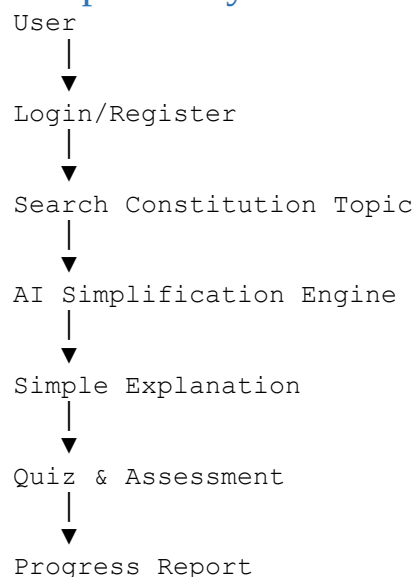

- Explains articles in simple language
 - Answers user questions
 - Generates summaries
 - Provides practice quizzes
-

Step 4: User Interaction

Users can:

- Search constitutional topics
 - Read simplified explanations
 - Listen to voice explanations
 - Attempt quizzes
 - Track learning progress
-

Chapter 8: System Architecture

Chapter 9: Proposed System

Modules

1. User Registration and Login
 2. Constitution Learning Module
 3. AI Simplification Engine
 4. Quiz Module
 5. Progress Tracking
 6. Voice Assistance
 7. Multilingual Support
-

Chapter 10: Dataset Description

Module	Description
Preamble	Objectives of the Constitution
Articles	Constitutional provisions
Fundamental Rights	Rights guaranteed to citizens
Fundamental Duties	Responsibilities of citizens
DPSP	Directive Principles
Amendments	Constitutional amendments
Quiz Questions	Practice questions
User Progress	Learning history

Chapter 11: Implementation

Technologies Used

- Python
- Flask/Django
- HTML
- CSS
- JavaScript
- SQLite/MySQL
- NLTK/spaCy
- Bootstrap

Implementation Steps

1. Collect constitutional content.
2. Simplify the language.
3. Build a searchable database.
4. Develop AI-based explanation and quiz modules.
5. Design the user interface.
6. Deploy the application.

Chapter 12: Results and Discussion

Sample User Query

Question: What is Article 21?

System Output

Article 21 guarantees every person the right to life and personal liberty. It means that no one can be deprived of life or personal freedom except according to a procedure established by law.

Example Quiz

Question: Which part of the Constitution contains Fundamental Rights?

Options:

- A. Part I
- B. Part III
- C. Part IV
- D. Part V

Correct Answer: Part III

Chapter 13: Advantages

- Easy-to-understand constitutional content
- Interactive learning experience
- AI-powered explanations
- Supports multilingual learning
- Improves civic awareness
- User-friendly interface
- Suitable for students and competitive exam preparation

Chapter 14: Limitations

- Requires regular updates for constitutional amendments
- Internet connectivity may be needed for AI features
- Quality of explanations depends on the knowledge base
- Voice support may require additional language models

Chapter 15: Future Enhancements

- Mobile application
- Regional language support
- Voice-based AI assistant
- Gamified learning with badges and rewards
- Personalized learning recommendations
- Integration with school and college e-learning systems
- Offline learning mode

Chapter 16: Conclusion

The "**Let's Learn Constitution in a Simpler Manner**" project provides an innovative and accessible approach to constitutional education. By combining Artificial Intelligence, Natural Language Processing, and interactive learning tools, the system makes constitutional concepts easier to understand for students and citizens. It promotes civic awareness,

encourages active learning, and supports digital education initiatives. The platform has the potential to improve constitutional literacy and foster informed, responsible citizenship.
